

## Save money with drop shipping and commingling.

*Meet Meter, Indicia and Stamp, the commingling dogs at Three Dog.*

Drop Shipping and Commingling are two ways to easily save on postage. At Three Dog, we have completely automated the process and use the most sophisticated equipment available today.

**Postal Drop Shipping** gives you maximum postal discounts and faster in-home delivery. Why? Because when your mail is drop shipped, it bypasses USPS processing and transit, allowing you to enjoy deeper discounts. We deliver it directly to the SCF or NDC, where it arrives on time and in good shape.

**Commingling** is the process of taking mail from multiple clients, combining all of the pieces, decreasing your postage, and distributing them to the appropriate SCFs and NDCs. We sort millions of pieces of mail every day. Using our state-of-the-art technology, commingling your mail allows us to take advantage of deep postal discounts.

In fact, the huge volume we handle makes us able to offer the most affordable commingling and drop shipping rates in the industry.

No bones about it - at three Dog Logistics, we work like dogs to give you the lowest possible rates!

*For more information on drop shipping and commingling, please visit [threedoglogistics.com](http://threedoglogistics.com).*
