

Three Dog Beats This Doggone Economy

We Made It!

Three Dog Logistics makes the Inc 500 List for 2010.

We're delighted and pleased to announce that we made this year's Inc 500 List of Fastest Growing Private Companies! In fact, Three Dog earned the position of **277 in the top 500** ranking. You can read all about it in the September 2010 issue.

"More than ever, this year's list is a testament to the creativity, resilience, and tenacity of America's top entrepreneurs," said the Inc. team in our congratulatory letter.

We also learned that we share this pedigree with notable companies such as Intuit, Microsoft, Zappos, Under Armour, Visa, Oracle and scores of other business powerhouses.

From the bottom of our hearts (and paws!), Three Dog Logistics would like to thank our customers, our employees, our friends and supporters, and most of all, our Marketing Goddess Pat Veverica for making this happen. Woof-woof!
